Specifications for the 1988 454 RV Engine by Jeff Slater . rv,ving image by Greg Pickens from Fotolia.com. Manufactured by Chevrolet, the 454-cubic-inch big-block V-8 is a workhorse used in a multitude of applications. The reliability and high torque made it an ideal choice for everything from light duty trucks, to SUVs and motorhomes. In its current displacement capacity, the engine debuted ...

~~Specifications for the 1988 454 RV Engine | It Still Runs~~

Unfortunately the Chevy 454 was the right engine at the wrong time. Uncle Sam started to tighten down on emission controls in 1971 which affected a lot of the power of the 454. Another big blow for the 454 was the gas crisis of 1973 which pretty much sealed the fate for the motor during this period. The last Chevilles of 1973 used the 454 but ...

The L19 TBI, or throttle body injection, powered 1987 and later trucks as the second 454 engine option. The TBI 454 had fuel injectors in the middle of the throttle body that increased fuel efficiency, power and durability. Early Truck 454s. Chevy began installing 454 V-8s in its trucks in 1973. All 454s have a 4.25-inch bore and 4-inch stroke. The 1973 1-ton trucks were equipped with a 240 ...

Home Tech RV Tech Q&A Motorhome Gas Engines. Tech; RV Tech Q&A; Motorhome Gas Engines. By. Ken Freund - July 26, 2012. I am looking for an impartial opinion from neither a Ford nor a GM/ Workhorse fan. I am considering buying a used 2005 or newer motorhome and would like an honest opinion about which engine is better on both flat and mountainous terrain (Ford 6.8-L or GM 8.1-L). I don ' t ...

~~RV Gas Engines | MotorHome Magazine~~

Your mileage is a bit low from my experience with a 34' 1985 Itasca Windcruiser with the 454. We usually got between 6.5 & 7.5 mpg, we got as low as 5 with strong head wind and as high as 8 with a strong tail wind. I have a friend with a 34' Southwind and the 454 and he gets about the same as I did. Speed was generally 58-60 mph.

It would be a 200 hp 2 bolt peanut port motor. Depending how early 90s it would be a Mark IV or a Gen V. Of course you can wake up those engines with a cam, valve springs, mild porting, headers, etc. squirrel, Sep 16, 2008

~~Motorhome 454 | The H.A.M.B.~~

The goal wasn't simply to validate a stock RV engine, but to see what kind of grunt was locked inside those 454 cubic inches by installing a better-breathing top end. To accomplish that goal, we ...

~~Bolt-On 230+ Horsepower to a 454ci Motor Home Big Block~~

Another contributing factor to how bad your motorhome 's gas mileage is would be the size of the vehicle. The bigger the size of the motorhome, the worse gas mileage your motorhome will get. This is because with a bigger vehicle, comes bigger and more parts necessary for making it able to run. The more parts you incorporate, the heavier it gets and the more pull on the engine that it exerts ...

~~The Giant Guide to Motorhome Gas Mileage (With 21 Examples ...~~

454 Gas Mileage. I have an 87 Allegro 33' MH total gross weight is under 14k and I was shocked at the low gas mileage I am getting. I just filled up and I'm averaging under 5.5 MPG's. I don't expect to get great mileage and was hoping for 7 to 8. During the last 2 trips I ran the generator about 10 hours with min. load (mainly recharging the batteries). I don't pull a toad. I feel I drive with ...
