destroyed, sending back one last photo of a strange alien being, scientists on Earth were flabbergasted. And so a joint investigation was launched by the United States and the Soviet Union, the first long-distance manned space mission, and a symbol of the new peace between the two great rivals. Humankind's first close encounter with extraterrestrials would be history in the making, and the two teams were schooled in diplomacy as well as in science. But nothing prepared them for alien war—especially when the Americans and the Soviets found themselves on opposite sides. . . .

Having a diverse workforce makes A World of Difference. Companies and organisations that have a diverse workforce benefit from increased innovation, creativity, performance and a better bottom line. However, building diverse teams in the workforce is not easy. Not everyone has the Cultural Intelligence (CQ) to work with people from other countries and cultures. Cultural Intelligence is not a personality trait, nor is it something you are born with. Rather, Cultural Intelligence develops through education, training, and experience. A good place to start to find out more about CQ is Felicity Menzies new book A World of Difference. Filled with a mix of anecdotes drawn from the author's personal experiences and research on this topic, Menzies helps leaders to understand Cultural Intelligence and how it can

give them an enviable competitive advantage. Companies with leaders and workers who have high Cultural Intelligence are more agile. These organisations can quickly adapt processes, products, and services to capture new opportunities and respond to change across diverse markets. Cultural Intelligence also promotes successful intercultural relations, both inside and outside the organisation. This improves business performance via enhanced innovation, increased workforce engagement, and more effective partnering.

readers on how the Christian perspective is uniquely reasonable, verifiable, and liveable. Author Kenneth Richard Samples faced a profound test of his own belief system during a personal life-and-death crisis. In A World of Difference, he uses nine distinct tests to compare the Christian worldview with current religious and philosophical competitors, including Islam, postmodernism, naturalism, and pantheistic monism. Samples tackles tough issues through this in-depth study of Christianity's history, creed, and philosophical basis. An excellent resource for readers who want their view of life and the world to make sense.

Academy of Sciences Council approved the NAE's articles of organization. Making a World of Difference commemorates the NAE anniversary with a collection of essays that highlight the prodigious changes in people's lives that have been created by engineering over the past half century and consider how the future will be similarly shaped. Over the past 50 years, engineering has transformed our lives literally every day, and it will continue to do so going forward, utilizing new capabilities, creating new applications, and providing ever-expanding services to people. The essays of Making a World of Difference discuss the seamless integration of engineering into both our society and our daily lives, and present a vision of what engineering may deliver in the next half century.

"In the free world of the future, many people are uneasy about the government's psychological power to control, even benevolently, its citizens' upbringing. Four friends, an artist, a scientist, an administrator, and an amonist, each find their own novel and surprising solutions to the problem of how to retain independence of mind and action in a world where conformity has reached way out beyond just one planet."--Back cover.

human aspects of the use of IT remain problematic despite technological advances. An enhanced ability to collect and process data, or to communicate electronically across time and space, does not necessarily lead to improved human communication and action. This book explores the social aspects of computerisation, using a wide range of detailed case studies, analysed from a variety of conceptual viewpoints. A further distinctive feature of the book is that it draws on empirical material from across the world as a whole, including non-Western countries. It is argued that we should be using IT to support a world in which diversity and difference are respected. Synopsis Making a World of Difference provides a context for the whole debate about the relationship of people and computers. It looks at the role of

Extraordinary, who changed their lives in order to make the world a better place. These amazing people live with the joy of knowing they make a difference. Their joy will inspire you. In this inspiration book, writer and film-maker Miles Roston tells the stories of people from around the world who, despite unlikely backgrounds, have used their skills and energy to change the lives of those less fortunate than themselves. They demonstrate that one person can make a difference, and by doing so live a life of sheer joy. Who would have thought that a Catholic priest from New York would end up caring for the dying in a Buddhist hospice in Thailand? Or that a marketing executive with a glamorous job at L'Oreal in Paris would open a beauty salon and restaurant in Cambodia staffed by former street kids? And
