~~Active Learning Strategies | Center for Teaching & Learning~~

Active learning is an umbrella term for learning and teaching methods which put the student in charge of their own learning through meaningful activities. They think about and apply what they are learning, in a deliberate contrast to passive learning. Research has shown that audience attention in lectures begins to wane every 10-20 minutes.

~~Active learning — University of Leicester~~
A singular approach of teaching concepts and theories, or the “old school” way, still has its place, but the benefits of implementing active learning strategies in nursing education are impossible to ignore. The benefits of using active learning strategies in nursing education
