Bitcoin Vault is a two-private-key coin that was created to solve the problems of theft and distribution that the original bitcoin has. Eyal and his team at Minebest are spearheading the development of this coin and Mining City is the company mining this coin largely. Bitcoin Vault mining has proven to be one of the profitable activities lately.

Digital Inferno Institute – Bitcoin Mining and Trading
Network Discovery When a new node boots up, it must discover other bitcoin nodes on the network in order to participate. To start this process, a new node must discover at least one existing node on the network and connect to it. The geographic location of other nodes is irrelevant; the bitcoin network topology is not geographically defined.
