But often, they need help. Mike Pereira, hired by Fox Sports in 2010 as the rules expert for both the NFL and college football, was not only the first to rise to prominence in the role, but he is consistently lauded as being the best by his peers and even rival media networks. Long-Term Athlete Development integrates current research on talent development and assessment into practice to help sport leaders plan athletic development across the life span or design detailed programs for a particular group, including those with physical and cognitive disabilities. Authors Balyi, Way, and Higgs—pioneers and veteran LTAD facilitators—critique current talent development models, discuss the limitations of the LTAD model, and demonstrate the benefits of LTAD as a new approach. By integrating knowledge of these models, readers are able to analyze their own programs and take steps to improve sport and coaching philosophies and reach adherence and performance goals.
