Lose yourself in the creative process with 35 meditative makes. In today's busy world, it can be difficult to find time to slow down and make time for the simple joy of making, so Clare Youngs has designed a wide range of beautiful and tempting projects to help you experience the pleasure and satisfaction that making something with your own hands can bring. The best thing about practicing mindfulness through craft is that you have something tangible to show at the end, and you can start small with the coral reef-inspired embroidery hoops, or just by making pompons and tassels to be added to the edge of a pillow or blanket. You can learn techniques such as block printing, punch needling, shibori dyeing, weaving, macramé, and quilting, all of which encourage a mindful approach, and a way to experience a feeling of "flow". Make unique things for yourself and your home, using natural materials such as wool, cotton, linen, and leather. Clare is a believer in making new things from old, using what you have, and adapting old fabrics to counteract a throwaway society, and all her designs have a Scandinavian-inspired, modern aesthetic.

From the crafty fox to the elegant stags, from the cute koala and her baby to the mischievous squirrels, every animal is specially designed by Clare Youngs to require a minimum of effort to put together. The projects are inexpensive, too, as cardboard is so readily available and easy to find, so anyone can have a go at creating a cute critter. You can then use them as highly individual decorations for your home or give them as gifts. Once you start creating, there really is a world of possibility to what you can make for yourself or your friends. The projects are accompanied by clear diagrams and there is a comprehensive tips and techniques section that explains all the skills you will need.

In the multimillion-dollar crafter market, this is one art form that appeals to artists and makers of all kinds, whatever their other mediums may be. Also termed 3-D collage, shadow boxes, or assemblage, it's based on how you choose and arrange items in a "box" (term used loosely!) to create a visual message. With 30 intriguing projects of varied complexity, this complete guide teaches techniques for arranging, organizing, mounting, and creating narratives. The boxes use easily available items like cigar boxes, unusual packaging containers, or mint tins. The form's history is covered too, including the curiosity cabinets of Renaissance Europe, the found-object assemblage boxes created in the 20th century by Joseph Cornell, and the works artists create today. Includes examples to teach arrangement, grouping, and assembly and offers extra inspiration with a 40-page gallery of a wide range of works by expert artists.

Mixed media techniques have come to forefront again, with artists in every field combining materials and effects to create journals, altered art, collage pieces, memory art and more. With all the creative experimentation developing at such a fast pace, it is pertinent to know how various techniques and combinations work and whether they are right for your latest project. Alphabetica illuminates new techniques through detailed visuals and rich, explanatory text. From cover to cover, readers absorb the specialties of each contributing artist, such as Judi Riesch's use of vintage photographs, and Lesley Riley's sophisticated fabric transfers, and are able to get an "over the shoulder" glance at how these artists work.
