The main objective of this report is to review the monitoring and evaluation (M&E) frameworks, tools and guidance documents that are available for climate-smart agriculture (CSA), and in particular for objective ("pillar") two on adaptation and resilience. The report is a literature review and does not propose a new methodology. It is not an exhaustive list, but summarises the main M&E frameworks. This report represents the first step towards the development of operational guidelines for the design and implementation of national M&E frameworks for CSA, to be developed during the first quarter of 2019. The envisioned operational guidelines will address the core constraints and needs of Member States on both the design and implementation of an M&E system that can simultaneously address CSA and sector reporting requirements for the 2030 Agenda climate instruments. These guidelines will address the principal need expressed by Member States that M&E systems and indicators should be simple and not onerous. The intended users are practitioners designing CSA projects at country level and policy-makers coordinating national-sector monitoring and reporting efforts on climate change under the following three global agreements: the United Nations 2030 Agenda for Sustainable Development, the Sendai Framework for Disaster Risk Reduction, and the United Nations Framework Convention on Climate Change (UNFCCC) Paris Agreement of 2015.

The Films of Kore-eda Hirokazu: An Elemental Cinema draws readers into the first 13 feature films and 5 of the documentaries of award-winning Japanese film director Kore-eda Hirokazu. With his recent top prize at the Cannes Film Festival for Shoplifters, Kore-eda is arguably Japan's greatest living director with an international viewership. He approaches difficult subjects (child abandonment, suicide, marginality) with a realistic and compassionate eye. The lyrical tone of the writing of Japanese film scholar Linda C. Ehrlich perfectly complements the understated, yet powerful, tone of the films. From An Elemental Cinema, readers will gain a special understanding of Kore-eda's films through a novel connection to the natural elements as reflected in Japanese traditional aesthetics. An Elemental Cinema presents Kore-eda's oeuvre as a connected whole with overarching thematic concerns, despite frequent generic experimentation. It also offers an example of how the poetics of cinema can be practiced in writing, as well as on the screen, and helps readers understand the films of this contemporary director as works of art that relate to their own lives.

The road to sobriety is hard, and I don't intend to sugar coat any part of it for you. In this book I will take it back to the beginning. My life was that of a hardcore weekend binge drinker, one blackout night after another. I welcome you into my rock bottom moments, my losing all control, and my putting my life back together, piece by piece. Sober as F*** is a personal memoir of my first two years of sobriety, but it is not only about becoming sober from alcohol. I was forced to face and accept many sobering realities about myself along the way when I put down the bottle. Everything in my life had to be broken down to nothing in order to rebuild it from the ground up. I would have to acknowledge my unhealthy relationships with men, come to terms with depression and anxiety, and to realize that I had been drowning all of my issues and emotions away, one swig of vodka at a time. In the beginning of my sobriety, I looked for support in many places. All of the books and stories I found never fit what mine looked like. So this one is for all the people out there with stories like mine, looking for reassurance that there can be a light at the end of the tunnel. I was so desperate to find that kind of reassurance during my journey, so I hope my story can be that for you. To the millennial weekend binger, to the young woman so desperate to feel love, to the one losing all hope that things can get better ... This one is for you.
