Rabbit Hole is a very quick read, almost a novella rather than a novel, and the prose is lean, perfect, dry and funny. Villalobos doesn't need to plump it up or say any more than he does. The book is narrated by Tochtli, the child of a drug baron. He is a protagonist that I both pitied and disliked.

Down, down, down she went, deeper into the rabbit hole. It seemed like she had been falling for an eternity, as if time had slowed almost to a stand-still. She moved through the air as if through water, the fragments of dust and light filling her vision. She opened her mouth to scream, but the voice that spoke was not her own. What was this place? Would she ever land? The stiflingly hot air of ...

Tochtli, the son of a drug baron, lives in a lavish palace hideout along with hit men, prostitutes, dealers, servants and corrupt politicians, but still nurtures childhood obsessions with animals and samurai. Original. 15,000 first printing.

The shocking, never-before-told story of the bizarre world inside the legendary Playboy Mansion—and, finally, the secret truth about the man who holds the key—from one of the few people who truly knows: Hef's former #1 girlfriend and star of The Girls Next Door A spontaneous decision at age twenty-one transformed small-town Oregon girl Holly Sue Cullen into Holly Madison, Hugh Hefner's #1 girlfriend. But like Alice's journey into Wonderland, after Holly plunged down the rabbit hole, what seemed like a fairytale life inside the Playboy Mansion—including A-list celebrity parties and her own #1-rated television show for four years—quickly devolved into an oppressive routine of strict rules, manipulation, and battles with ambitious, backstabbing bunnies. Life inside the notorious Mansion wasn't a dream at all—and quickly became her nightmare. After losing her identity, her sense of self-worth, and her hope for the future, Holly found herself sitting alone in a bathtub contemplating suicide. But instead of ending her life, Holly chose to take charge of it. In this shockingly candid and surprisingly moving memoir, this thoughtful and introspective woman opens up about life inside the Mansion, the drugs, the sex, the abuse, the infamous parties, and her real behind-the-scenes life with Bridget, Kendra, and, of course, Mr. Playboy himself. With great courage, Holly shares the details of her subsequent troubled relationship, landing her own successful television series, and the hard work of healing, including her turn on Dancing with the Stars. A cautionary tale and a celebration of personal empowerment, Down the Rabbit Hole reminds us of the importance of fighting for our dreams—and finding the life we deserve.

A former girlfriend of Hugh Hefner describes how her years inside the Playboy Mansion went from a fairytale of A-list celebrity parties to an oppressive regime of strict rules, scheduled sex, and a total loss of identity, so much so that she even contemplated suicide.

Enter a wonderland of mesmerizing tales. It's a place that's neither here nor there, where things are never quite as they seem. Inspired by Lewis Carroll's whimsical masterpiece, ranging from the impossible to the mad to the curiously, these stories will have you absolutely off your head.

"My all-time favorite. Astonishing." (Stephen King) Down the Rabbit Hole is the first book in the Echo Falls mystery series by bestselling crime novelist Peter Abrahams. Perfect for middle school readers looking for a good mystery. Welcome to Echo Falls, home of a thousand secrets. In Down the Rabbit Hole, eighth grader Ingrid Levin-Hill is in the wrong place at the wrong time. Or at least her shoes are. And getting them back will mean getting tangled up in a murder investigation as complicated as the mysteries solved by her idol, Sherlock Holmes. With soccer practice, schoolwork, and the lead role in her town's production of Alice in Wonderland, Ingrid is swamped. But as things in Echo Falls keep getting curiously and curiously, Ingrid realizes she must solve the murder on her own—before it's too late. "Deft use of literary allusions and ironic humor add further touches of class to a topnotch mystery," said School Library Journal. "Intriguing twists." Publishers Weekly agreed: "The fresh dialogue and believable small-town setting will tempt fans to visit Echo Falls again." The next book in this Edgar Award-nominated series in Behind the Curtain, followed by Into the Dark.

A top neurologist explains the difficulty of diagnosing brain diseases through such cases as a college quarterback who keeps calling the same play and a salesman who continuously drives around a traffic circle.

Build your quilt making skills one block at a time. Sarah's new book, Down the Rabbit Hole, is the full pattern from her 2017 Block of the Month. Finished quilt size is: 96" (240cm) square It is only one quilt pattern—however, it contains enough work to keep you busy for a whole year, broken out into chapters. It is quite a complex design, containing traditional piecing, Foundation Paper piecing, English Paper Piecing, needle turn applique and a lot more – however the book is broken down to be made in order of difficulty from start to finish, so you build on your skills as you sew. Each technique is explained and there is an option to buy accompanying videos. This quilt has been made by many hundreds of people before you even see this book, so there is a gallery of quilts for inspiration for you to access, and you know the pattern has been well tested! INCLUDES OVER 6 HOURS OF INSTRUCTIONAL VIDEOS AVAILABLE TO VIEW AT WWW.SARAHFIELKEBLOCKOFMONTH.COM.

"Tell the doctor where it hurts." It sounds simple enough, unless the problem affects the very organ that produces awareness and generates speech. What is it like to try to heal the body when the mind is under attack? In this book, Dr. Allan Ropper and Brian Burrell take the reader behind the scenes at Harvard Medical School's neurology unit to show how a seasoned diagnostician faces down bizarre, life-altering afflictions. Like Alice in Wonderland, Dr. Ropper inhabits a world where absurdities abound: • A figure skater whose body has become a ticking time-bomb • A salesman who drives around and around a traffic rotary, unable to get off • A college quarterback who can't stop calling the same play • A child molester who, after falling on the ice, is left with a brain that is very much dead inside a body that is very much alive • A mother of two young girls, diagnosed with ALS, who has to decide whether a life locked inside her own head is worth living How does one begin to treat such cases, to counsel people whose lives may be changed forever? How does one train the next generation of clinicians to deal with the moral and medical aspects of brain disease? Dr. Ropper and his colleague answer these questions by taking the reader into a rarified world where lives and minds hang in the balance.

Kate, born to abusive, drug addicted parents, identifies an inner God voice when she is very young. This voice, and the support of her grandmother, helps her overcome her circumstances instead of falling victim to them. However, as she grows up she finds that the apple doesn't fall too far from the tree, and she discovers that she is an addict herself. Deciding not to go down the path her parents went, she rises above her circumstances again and chooses the path of recovery. Now 8 years sober she shares how faith helped her continue to take positive action and avoid victimization every step of the way."Impossible to put down. Both drily funny and yet often terrifying, this is a raw, unflinching account of a chaotic and abusive childhood overcome by inner strength and an enduring sense of humor."

In the previous book in this series, Manfred Kets de Vries observed the experiences of leaders on a rollercoaster ride through their professional and personal lives. Now, he follows them down the rabbit hole into the unknown, where, like Lewis Carroll's Alice, they find a dystopian Wonderland in which everyone seems to have gone mad and life functions according to its own crazy logic, throwing up all kinds of obstacles in the search for truth. Understanding what is happening around us has become more difficult than ever in the Age of Trump. Don't imperatives like "build that wall" sound very much like "Off with his head"? Unfortunately, and unlike Alice, we are not going to wake up from a bad dream and discover that everything is "nothing but a pack of cards". The first part of this book looks at the psychodynamics of leadership in both a business and a political context. The second focuses on the psychopathology of everyday life in organizations and the seemingly endless ways people can make a mess of things – including mega pay packages, acting out, digital addiction and other dysfunctional behaviour patterns. Each chapter ends with a brief anecdote to illustrate the dilemma it presents. In short, sharp nuggets, Kets de Vries helps make sense of how the madness of the present has affected leadership in organizations and the workplace.
