It's here - the recommended sequel to the Jacobs math series. Paul Foerster taught math beginning in 1961 and puts his teaching expertise to work in this text which is designed as a course in intermediate and advanced algebra and trigonometry. After completing algebra 1 and geometry, this book is the next step before calculus. The presentation emphasizes the role of algebra and trigonometry as the foundation for calculus and should take a student 1 1/2 to 2 years for completion.
