The passive anti-theft system (PATS) is installed on every Ford Expedition at the factory. While some erroneously call this system the factory alarm, it really is not an alarm system. The PATS system will arm itself if someone attempts to start the vehicle with anything other than the PATS key programmed to that ...

How to Reset the Theft Protection in a Ford Expedition ...

Insert the key into the ignition and turn it on to the position where the accessories are activated but not the engine. The display of the car behind the steering will light up and will show the anti-theft light blinking or constantly lit. Leave the key in this position for at least 10 minutes. Check the anti-theft light again.

How to Disable Anti-Theft on a Ford. Press the unlock button on your vehicle's key fob to deactivate the alarm. If you've misplaced your remote for the car, use the PATS programmed key to unlock the driver's side door. Then, put the key in the ignition and turn the key to the "on" position.

How to Disable Anti-Theft in Vehicles | It Still Runs

OBD II fault code P1260 is a manufacturer specific code that is defined by carmaker Ford as " THEFT Detected- Vehicle Immobilized " , and is set when the PCM (Powertrain Control Module) detects a violation of the PATS (Passive Anti-theft System) security protocols, which has disabled the engine. On Ford applications, the PATS system communicates with the PCM via the instrument cluster, and depending on the signals received from the instrument cluster, the PCM will either disable the engine ...

P1260 – Theft Detected Vehicle Immobilized (Ford ...

If the anti-theft system has locked up your engine, you won ' t be able to start it. You ' ll have to disable it with these steps. Step 1: Check for the anti-theft light. It ' s located on your dash and will have a blue or red light. Step 2: Turn the ignition to the "on" position. Insert the key into the ignition and turn it to the on position, which activates your accessories but not the engine.

How To Disable Theft System On 1998 Expedition

we recently purchased a used ford escape (2007) which only came with one key. only to find out that a new key will cost in the \$100.00 range (\$38.00 for the key, and \$65.00 for "programming". all because ford is cramming an anti theft system down our throat. for brand new cars, especially in large cities, that may be necessary. but out in the sticks, a car is much more likely to have a tree fall on it, than be stolen. i would really LOVE to completely bypass this system. but if it can be done
