An autoguider is a digital camera with a CCD or CMOS
detector at the focus of the guidescope or, in the case of an
off-axis guider, at the focus of the imaging instrument after
some of its light has been diverted by a small prism.

Orion Starshoot Autoguider #22552. Sorry but I'm only now coming across this conversation. I too had problems getting the Orion camera to work with Win 10. Orion's tech support rendered suggestions that in the end didn't work. I ended up having to revive an older XP based laptop where the camera connected and functions just fine. Please Log in or Create an account to join the conversation. 1 ...
