8 Design To

SUMMARY: This paper presents design concepts of Eurocode 7 and 8 with regard to simple foundation design. Design methodology of Eurocode 7 is compared with that of BS 8004:1986. A simple design example of a pad

Download Free Foundation

foundation is used to compare Eurocode 7 and BS design methods.

Seismic performance of the pad foundation of different dimensions is then analysed using PLAXIS dynamic code.

Bearing Capacity calculation method is detailed in BS EN 1997. The Eurocode 7 bearing capacity method is included simply as one suitable method alongside many others.

However as this particular method is detailed within the standard, using

Download Free Foundation

the Eurocode 7 bearing capacity method is becoming more and more popular.
