Many times they are very quick to get started using, but in my experience, become annoying and quirky as the project grows. Enter Django Channels. Django Channels is a fairly new project by Andrew Godwin that extends Django to make it easy to work with WebSockets in a way that should already be familiar to those that use Django. Recently, Channels has been adopted as an official Django Project, so it's here to stay and will continue to see love from the Django core team and community going ...
