Just about everyone seems to have views about language. Language attitudes and language ideologies permeate our daily lives. Our competence, intelligence, friendliness, trustworthiness, social status, group memberships, and so on, are often judged from the way we communicate. Even the speed at which we speak can evoke reactions. And we often try to anticipate such judgements as we communicate. In this lively introduction, Peter Garrett draws upon research carried out over recent decades in order to discuss such attitudes and the implications they have for our use of language, for social advantage or discrimination, and for social identity. Using a range of examples that includes punctuation, words, grammar, pronunciation, accents, dialects and languages, this book explores the intricate and fascinating ways in which language influences our everyday thoughts, feelings and behaviour.

Since the earliest days of cinema the law has influenced the conditions in which Hollywood films are made, sold, circulated or presented – from the talent contracts that enable a film to go into production, to the copyright laws that govern its distribution and the

copyright laws that may block exhibition. Equally, Hollywood has left its own impression on the American legal system by lobbying to expand the duration of copyright, providing a highly visible stage for contract disputes and representing the legal system on screen. In this comprehensive collection, international experts offer chapters on key topics, including copyright, trademark, piracy, antitrust, censorship, international exhibition, contracts, labour and tax. Drawing on historical and contemporary case studies, *Hollywood and the Law* provides readers with a wide range of perspectives on how legal frameworks shape the culture and commerce of popular film.

Film Music in the Sound Era: A Research and Information Guide offers a comprehensive bibliography of scholarship on music in sound film (1927–2017). Thematically organized sections cover historical studies, studies of musicians and filmmakers, genre studies, theory and aesthetics, and other key aspects of film music studies. Broad coverage of works from around the globe, paired with robust indexes and thorough cross-referencing, make this research guide an invaluable tool for all scholars and students investigating the intersection of music and film. This guide is published in two volumes: *Volume 1: Histories, Theories, and Genres* covers overviews, historical surveys, theory and criticism, studies of film genres, and

case studies of individual films. Volume 2: People, Cultures, and Contexts covers individual people, social and cultural studies, studies of musical genre, pedagogy, and the industry. A complete index is included in each volume.

Kimble examines the U.S. Treasury's eight war bond drives that raised over \$185 billion—the largest single domestic propaganda campaign known to that time. The campaign enlisted such figures as Judy Garland, Norman Rockwell, Irving Berlin, and Donald Duck to cultivate national morale and convince Americans to buy war bonds.

Issued in connection with an exhibition held Oct. 5, 2010-Jan. 17, 2011, Metropolitan Museum of Art, New York, and Feb. 23-May 30, 2011, National Gallery, London (selected paintings only).
