Guide: What is an audit process? Get the
Key Concepts

The auditing process is the specific steps used in a financial, operational or compliance audit. The steps may vary depending on the company and the type of audit services company owners requested from an external accounting firm. Most companies have financial audits once a year; operational and compliance audits are normally conducted on an as-needed basis.

performances of an enterprise for a stated purpose. The auditing process consists of defined quantity of audit steps. Planning is fundamental stage of auditing process.

Auditing Process | Audit Planning Process
Audit criteria are used as the reference for determining conformity, they effectively describe what should be achieved for any given process or activity. The criteria to be audited against will be set by the process owner of the internal audit programme (normally the quality manager) and agreed with the auditor and the departments concerned.
