In Location of Culture, Homi Bhabha sets out the conceptual imperative and political consistency of the post-colonial intellectual project. In a provocative series of essays, Bhabha explains why the post-colonial critique has altered forever the landscape of postmodern discourse. Location of Cultureexamines the displacement of the colonist's legitimizing cultural authority; the margins of Western "civility" put under colonial stress; the complex cultural and political boundaries which exist between the spheres of gender, race, class, and sexuality; the place of language, psychic affect, and narrative discourse in the construction of social authority and cultural identity. Bhabha investigates a diverse range of texts in a bold attempt to specify the moment and the place of both colonial and post-colonial perspectives. He discusses writers such as Toni Morrison, Nadine Gordimer, and Salman Rushdie; historical documents such as those on the Indian Mutiny and by missionaries; race riots and nationhood; and he builds on the work of important cultural theorists such as Frantz Fanon and Edward Said.

In addition to developing theories of hybridity, the articles in this volume deal with the role of hybridity in a variety of literary and cultural phenomena in geographical settings ranging from the Pacific to native North America. The collection pays particular attention to questions of hybridity, migrancy and diaspora.
