Journal of Cancer Epidemiology and Prevention

The focus is on its epidemiology in England and in identifying potential means of prevention. We divide the published studies into those concerned with suicides in (i) the general population and (ii) institutional settings. These are considered separately because the opportunities for prevention depend upon the setting.

epidemiology and prevention of suicide by hanging: a

Prevention Science | Home

International Journal of Epidemiology 1985;14:32-38. Aetiology confronts two distinct issues: the determinants of individual cases, and the determinants of incidence rate. If exposure to a necessary agent is homogeneous within a population, then case/control and cohort methods will fail to detect it: they will only identify markers of susceptibility.
