From an accomplished practitioner, curator and theorist comes Stick Figures: Drawing as a Human Practice to reset the terms for an ancient activity. D.B. Dowd embraces drawing as a process for everyone, not just artists. This beautifully designed book uses a wonderful range of visual samples to explore an elemental human capacity. The artifacts of drawing (chiefly, illustrations and cartoons) are rescued from outdated hierarchies of taste and engaged on their own theoretical and cultural terms.-Pithy, companionable and funny, Stick Figures will change the discussion about drawing, illustration, cartooning, design and printmaking.-Taxonomically clear, technologically specific and free of art-speak for general readers and humanists who work with published images.-Thoughtful, critical and precise about the damage done by fetishized aesthetics; provides new tools for engaging popular visual production in the modern era.

This brief, updated edition presents the digital medium entirely in its most updated form with greater emphasis on integrating workflows throughout to make learning techniques even simpler and the most up-to-date industry knowledge. In addition to covering the basic techniques of photography, this text covers the impact of computers on this important art form. --from publisher description

When words speak, silence and worlds intersect, it has to be Listen Girl! A touching tale of a mother-daughter relationship, it is an evergreen classic that delves into the elusive depths of a unique friendship. Superbly translated by Shivanath, and metaphors conveyed almost in its original version, it is a must read for all.

The Logic Manual is the ideal introduction to logic for beginning philosophy students. It offers a concise but complete introductory course, giving a firm grounding in the logic that is needed to study contemporary philosophy. In this comprehensive guide to pottery Kenneth Clark explains with the help of practical and informative text together with step-by-step illustrations and examples of finished work the various aspects of pottery. These include techniques of wedge making, pinching, coiling, slab building, throwing, joining, moulding and turning. In addition Clark gives full details on techniques of decoration, tools and equipment, kilns and firing, glazes, pigments and stains finishing with a full glossary. He also suggests ways in which potters can extend their techniques of production to meet the needs of changing markets and conditions, whilst trying to keep a balance between the work of the artist innovator and the production potter or ceramicist.
