Cultures of Memory. Welcome to the Cultures of Memory research group. This research group is focused upon the creation of spaces for the discussion, development and dissemination of memory work from across Newcastle University. Our coordinating group is built from academics from a range of disciplines (see the 'People' section for more details). Over the past year we have run a series of workshop events as we sought to develop a network of researchers from across the university.

Memory, Narrativity and Subjectivity. Authors: Forchtner, Bernhard ... In the process, Forchtner provides a valuable conceptual apparatus not only for scholars of memory but also sociologists of culture, politics, and knowledge more generally. " (Christina Simko, European Journal of Cultural and Political Sociology, Vol. 5 (03), 2018)

Memory, Narrativity and Subjectivity - Palgrave Macmillan

Because memory is not just an individual, private experience but is also part of the collective domain, cultural memory has become a topic in both historiography and cultural studies. These emphasize cultural memory 's process and its implications and objects, respectively. Two schools of thought have emerged, one articulates that the present shapes our understanding of the past. The other assumes that the past has an influence on our present behavior. It has, however, been pointed out that ...

Memory cultures: memory, subjectivity, and recognition by ...

It may surprise you to learn that your culture affects how you remember the past. According to a study by Brandeis University, published on Futurity , when remembering an event like a birthday party, Westerners were more likely to focus on details like the color of the decorations and the icing on the cake. East Asians were more inclined to remember interpersonal aspects like who served the cake or who danced with whom.

How Culture Affects Memory - RW3 CultureWizard

Lotman 's concept of culture as the non-hereditary memory of a community that is in a continuous process of self-interpretation will be of interest to scholars working in cultural theory, memory studies and the theory of history.

Juri Lotman - Culture, Memory and History - Essays in ...

The Cultural Memory strand is about memory as placing, cultural connection and creation. It is led by Professor Juliet Simpson FRSA, FRHistS. Research within the Cultural Memory strand explores the significance of sites, objects, artworks, images and texts in shaping identities of memory and belonging. Asking new and in-depth questions about why the past matters now and for future memory-making, it encompasses art works, places, cultures and communities – how and in what ways their ...

Cultural Memory | Coventry University

National memory is a form of collective memory defined by shared experiences and culture. It is an integral part to national identity. It represents one specific form of cultural memory, which makes an essential contribution to national group cohesion. Historically national communities have drawn upon commemorative ceremonies and monuments, myths and rituals, glorified individuals, objects, and events in their own history to produce a common narrative. According to Lorraine Ryan, national memory

National memory - Wikipedia

Cultural memory studies is a field to which many disciplines contribute, using their specific methodologies and perspectives. This makes for its terminological richness, but also for its disjointedness. At the same time, it has been clear since its very inception that the study of cultural memory can only be successful if it is based
