Military

country's perpetual quest for military modernization. This quest was pursued by the Romanovs and the Soviets and continues in modern-day Russia.

Military spending is always prioritized over essential economic and social reforms, hampering the country's competitiveness on the

of the Table of Ranks —a formal list of ranks in the Russian military, government, and royal court. The Table of Ranks established a complex system of titles and honorifics, each classed with a number denoting a specific level of service or loyalty to the tsar; this was among the most audacious of Peter's reforms.
