Interdisciplinary Thinking for Schools: Ethical Dilemmas MYP 1, 2 & 3 is not your average textbook resource. Innovative ethical design projects illustrated with spectacular artwork will connect students to exciting and purposeful learning. Rich primary research includes interviews with the following visionaries: Alberto Alessi, Astronomer Royal Martin Rees, Dr. Jane Goodall, Jared Della Valle and the Stephanie Alexander Kitchen Garden Foundation. The interdisciplinary units have been written with a focus on creativity, critical thinking and exploration of embedded ethical dilemmas. Our strategies support the growth of an innovative and student-centered curriculum to generate real world, sustainable solutions to problems in keeping with the IB MYP philosophy.

The purpose of this book is to showcase K-12 unique and educational significant activities that we may all learn from. The essays in the book, under girded by sound research, highlight remarkable activities that are already taking place around the world. The essays offer a detailed description of a classroom or a school; provide an interpretation of what is taking place in this setting and why; and inform readers about what can be learned from the setting. Some readers will appreciate the vivid descriptions, which will encourage them to push their own thinking. Others may learn from the author's discussion of essential ideas from the essay, which can be reflected upon and transferred into other situations. All readers are likely to appreciate hearing about the varied and creative activities. The stories of these noteworthy teachers fall into four categories: risk-taking, creativity, care and community, and interconnectedness. Within these themes are ideas that teachers can use to create their own remarkable classrooms. Each theme is

discussed and then several examples of how the theme plays out in the educational setting are described.

Peterson's Private Secondary Schools: Traditional Day and Boarding Schools is everything parents need to find the right day or boarding private secondary school for their child. Readers will find hundreds of school profiles plus links to informative two-page in-depth descriptions written by some of the schools. Helpful information includes the school's area of specialization, setting, affiliation, accreditation, subjects offered, special academic programs, tuition, financial aid, student profile, faculty, academic programs, student life, admission information, contacts, and much more.

Peterson's Private Secondary Schools is everything parents need to find the right private secondary school for their child. This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada, and around the world. Schools featured include independent day schools, special needs schools, and boarding schools (including junior boarding schools for middle-school students). Helpful information listed for each of these schools include: school's area of specialization, setting, affiliation, accreditation, tuition, financial aid, student body, faculty, academic programs, social life, admission information, contacts, and more. Also includes helpful articles on the merits of private education, planning a successful school search, searching for private schools online, finding the perfect match, paying for a private education, tips for taking the necessary standardized tests, semester programs and understanding the private schools' admission application form and process.

General music is informed by a variety of teaching approaches and methods. These pedagogical frameworks guide teachers in planning and implementing instruction. Established approaches to teaching general music must be understood, critically examined, and possibly re-imagined for their potential in school and community music education programs. Teaching General Music brings together the top scholars and practitioners in general music education to create a panoramic view of general music pedagogy and to provide critical lenses through which to view these frameworks. The collection includes an examination of the most prevalent approaches to teaching general music, including Dalcroze, Informal Learning, Interdisciplinary, Kodály, Music Learning Theory, Orff Schulwerk, Social Constructivism, and World Music Pedagogy. In addition, it provides critical analyses of general music and teaching systems, in light of the ways children around the world experience music in their lives. Rather than promoting or advocating for any single approach to teaching music, this book presents the various approaches in conversation with one another. Highlighting the perceived and documented benefits, limits, challenges, and potentials of each, Teaching General Music offers myriad lenses through which to re-read, re-think, and re-practice these approaches.
