Sounds like Nat Geo Kids readers! _____ Try this! Sometimes we don't realise how much plastic we actually get through each week. A useful activity to try with your family or school is to collect all the plastic your house or class discards in one week. Then at the end of the week lay it all out and count it! Take pictures too.

All about plastic! | National Geographic Kids

"This ... atlas takes readers through maps of the solar system, the Milky Way, and deep space, giving them a close look at and locations of planets, supernovas, and other universes. Sky maps will help kids spot these objects in the night sky and maps of planets and our solar system give the kind of ... detail that National Geographic is known for"--Amazon.com.

Challenge your brain with tons of do-it-yourself, interactive fun! These crosswords, sudokus, word searches, and other boredom busters will keep you entertained for hours. Blast off to the most fascinating places in our solar system! You'll get to know the planets, moons, and rockets of outer space--and test your puzzle chops while you're at it. This activity book is brimming with out-of-this-world facts, awesome photos, and endless entertainment. (Where else can you learn about space exploration AND master a crossword puzzle--all in the same book?) Plus, all this fun is packed into a handy, portable size, perfect for tossing into a backpack or taking on the road.

National Geographic spins off its best-selling Little Kids First Big Book series into engaging new board books to introduce even the littlest kids to high-quality nonfiction. These sturdy pages explore the basics of the solar system with amazing photographs, super-simple facts, and lively, age-appropriate language to keep babies and toddlers--and their grown-ups--fascinated by every colorful page. With stunning photos of the Earth and other planets, this beautiful book introduces the very youngest explorers to the wonders of the space, beginning right here on Earth and expanding into the universes beyond. Designed to be the stepping stone to the Little Kids First Big Book series, the National Geographic Little Kids First Board Books take similar subjects and drill them down to the simplest nonfiction concepts for the youngest audience. Not only will readers learn about planets and our solar system, they can also find recurring shapes and patterns in the design; occasional callouts will add humor for adults, and sidebar text offers additional learning for older siblings or those ready for more complex information.With their square shape, bright and playful design, awesome photography, clear text, and cues to encourage interactive learning, the Little Kids First Board Books mirror the beloved First Big Books while taking a fresh new approach to excite a baby's sense of wonder and make learning about nature and science fun.

"Blast off to a universe of photos, facts, and fun!"--Front cover.

This activity book is jam-packed with the coolest reptiles and amphibians kids love - from frogs to turtles to alligators to lizards. Loaded with color and fun, it includes mazes, spelling and pattern games, drawing activities, more than 1,000 stickers, and more.

"Experiments for young children to conduct to learn about science"--
