The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. In this book, Riley provides a useful overview of the unschooling movement, grounding her study in the choices and challenges facing families as they consider different paths towards educating their children outside of traditional school systems.
