In recent years number of cases have come to light wherein jurisprudence and ethics have failed to curb malpractices within pharmacy and pharmacology and have as a result been cited as examples not be emulated. The book cites sifts and explores through these cases amendments and regulations which control drug manufacture and production.

From a deontological perspective, pharmaceutical firms have a moral obligation to provide fairly priced drugs lest they use their consumers as a means to a profit rather than prioritizing fair access to medication. The central problem with the pharmaceutical industry is its lack of competition, a characteristic protected by current drug patent laws.
