The Porsche 356 was the model that started it all for Porsche. Whilst on a sabbatical in Stuttgart in June of 1962 the first owner ordered this wonderful vehicle. In September 1962 it arrived in Portland, Oregon, where it stayed until 1969. From 1969 to 2014 the car belonged to the second owner in British Columbia, Canada. ...

shocks, heater and exhaust plus a detailed electrical system section including wiring diagrams. There is a comprehensive chapter on routine service, maintenance and tune ups plus detailed technical specifications and maintenance charts. In addition, there are separate chapters dealing with the three different carburetors fitted to the 356 series - Solex, Zenith and Weber plus a chapter on the Carrera engine and special section on increasing power and performance. This is a - must have - reference for any Porsche 356 enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior purchasing of one of these classic automobiles. This do-it-yourself workshop manual has been specially written for the owner who wishes to maintain his vehicle and carry out the bulk of his own servicing and repairs. Step-by-step instructions and many illustrations are given of most dismantling, overhauling & assembling operations. Certain assemblies require the use of expensive special tools and although information is included it is recommended that these go to the garage. Covers the 356A, 356B, 356C.
