Review Of Systems Documentation Example

For efficiency, many of us include any pertinent positives and negatives in the history of present illness (HPI) and use an ROS caveat such as " 10/14 Review of Systems completed and is negative except as stated above in HPI (Systems reviewed: Const, Eyes, ENT, Resp, CV, GI, GU, MSK, Skin, Neuro) " or " A complete Review of Systems was obtained and is negative except as stated in HPI.

ED Charting and Coding: Review of Systems

The review of systems is distinct. For example, if the documentation read, " The patient states she has a sore throat, " credit would not be given to both the HPI location and to the review of the ENT system. But if the documentation specifies, " The patient states that she has a sore throat. She denies any postnasal drip or fullness in her ears when she swallows, " there is a distinct component of both the HPI and a separate ENT system review.

Know Review of Systems for More Accurate Coding - AAPC ...

For example, if the patient says he or she has asthma, supporting documentation could note that the patient carries an inhaler. If a patient notes an issue with his or her endocrine system, it would be appropriate to mention that a primary care doctor is monitoring him or her for diabetes.
