Change the way your students see the world. In Revel® Society: The Basics, author John Macionis empowers your students to change the way they view the world by showing them how to see sociology in everyday life. Throughout this brief text, Macionis takes an enlightening and practical approach to the

traditional three-perspectives approach, guiding students step by step through the theories and research that make up the discipline.

Seeing Sociology in your Everyday Life Macionis empowers students to understand the world around them through a sociological lens, so they can better understand sociology and their own lives. Society: The Basics, 12th edition is written to help students find and use sociology in everyday life. With a complete theoretical framework and a global perspective, Society: The Basics offers students an accessible and relevant introduction to sociology. The new edition continues to grow to meet readers' changing needs. With a newly integrated pedagogical framework, readers are guided through both the text - and optional new MySocLab - to build their critical thinking skills while learning the fundamentals of sociology. Teaching and Learning Experience This program will provide a better teaching and learning experience - for you and your students. Here's how: \*Personalize Learning - The new MySocLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students and instructors achieve their goals.\*Improve Critical Thinking -Six new learning objectives per chapter help readers build critical thinking and study skills. \*Engage Students - New design, everyday life and pop culture examples make sociology relevant for students today. \*Explore Theory -Three main theoretical perspectives are discussed in every chapter. \*Understand Diversity - Contemporary research informed by expert reviewers and cutting edge data sources reflect a broad range of race / class / gender. \*Support Instructors - Author written activities and assessment in MySocLab, the test bank and instructor's manual help provide support for instructors.

John Macionis, like many college students, found his passion and life's work after taking an introductory sociology course. Sociology helped him make sense of the world around him. John shares his enthusiasm, excitement and teaching experience through a clear and engaging writing style that connects with students. This is the introductory sociology text that shows students how sociology is relevant in their daily lives. Sociology, 12/e, has an innovative new design, contemporary and relevant student applications, plus a wealth of supplemental material. This revision elevates Sociology's high standard of excellence, ensuring that it remains one of the foremost comprehensive introductory sociology resources for students and instructors alike. Sociology, 12/e strengthens the Macionis tradition of helping students see sociology in their everyday life!

Building Sustainable Futures for Adult Learners is an edited and refereed collection of papers published in conjunction with the joint Adult Higher Educational Alliance (AHEA) and American Association of Adult and Continuing Education Conferences (AAACE). This book is the third in a series of scholarly publications associated with the annual AHEA conference. The book is arranged thematically according to the topics of submissions. Building Sustainable Futures is important because it fills a unique niche in the field of adult education, extends the scope of AHEA to a larger audience, and offers a current volume for scholars and practitioners based on both research and practice-based research.

Global Health and Volunteering: A Guide for Healthcare Professionals is designed to educate volunteers to be effective partners in delivering medical services locally and globally. Healthcare professionals are increasingly interested in global health and volunteering in areas of acute need. The biggest challenge to health in many locales is the inability to access the health care system. When people do connect with medical services, medications and surgical opportunities for chronic disease (i.e. glaucoma, diabetes, or hypertension) are often not affordable or cannot be sustained for a long period of time.

The contributions in this book focus on a respectful dialog with local people and a willingness to learn from new experiences on the part of the volunteer. Skills transfer from visiting personnel to local providers is featured as a means to enhance healthcare sustainability. An appreciation of differing cultures, an understanding of the local economic conditions and challenges, and strategies for collaborating with the existing medical establishment are foundations of successful volunteer experiences as highlighted in this book. Dimensions of global health such as professionalism, religious beliefs, ethical dilemmas, traditional medicine, and alternative strategies for service are addressed by experts. Written and edited by leaders in the field, many of whom have more than two decades of experience volunteering abroad, *Global Health and Volunteering: A Guide for Healthcare Professionals* imparts lessons learned to help the reader avoid initial mistakes, while making the global health commitment stronger.

**ALERT:** Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Seeing Sociology in your Everyday Life With a complete theoretical framework and a global perspective, *Society: The Basics*, 13/e offers students an accessible and relevant introduction to sociology. John Macionis, author of the best-selling *Introductory Sociology* franchise over the last three decades, empowers students to see the world around them through a sociological lens, helping them to better understand their own lives. This informative, engaging, and entertaining title will change the way readers see the world and open the door to many new opportunities. MySocLab is an integral part of the Macionis learning program. Engaging activities and assessments provide a teaching a learning system that helps students see the world through a sociological lens. With MySocLab, students can develop critical thinking skills through writing, explore real-world data through the new Social Explorer, and watch the latest entries in the Core Concept Video Series. This title is available in a variety of formats — digital and print. Pearson offers its titles on the devices students love through Pearson's MyLab products, CourseSmart, Amazon, and more. 0205983308 / 9780205983308 *Society: The Basics PLUS NEW MySocLab with Pearson eText -- Access Card Package* Package consists of: 0205206530 / 9780205206537 *NEW MySocLab with Pearson eText -- Valuepack Access Card* 0205982514 / 9780205982516 *Society: The Basics*

This book comprises the full selected Regular Lectures from the Proceedings of the 12th International Congress on Mathematical Education (ICME-12), which was held at COEX in Seoul, Korea, from July 8th to 15th, 2012. ICME-12 brought together 4700 experts from 100 countries, working to understand all of the intellectual and attitudinal challenges in the subject of mathematics education as a multidisciplinary research and practice. These selected Regular Lectures present the work of fifty-one prominent mathematics educators from all over the globe. The Lectures cover a wide spectrum of topics, themes and issues and aim to give direction to future research towards educational improvement in the teaching and learning of mathematics education. This book is of particular interest to researchers, teachers and curriculum developers in mathematics education.

Pharmacovigilance Practice, Pharmacy Practices and its Challenges, Biopharmaceutical Sciences, Clinical Trials on Various Disorders, Data Quality Management and Analysis, Pharmacovigilance Significance & Scope, Diversity in Industrial Clinical Trials and Clinical Research, Clinical Research and Statistics, Case Report in Clinical Trials, Drug Safety, Clinical Data Base Management, PV Consultings and Business Opportunity, Regulatory Affairs, Entrepreneurs Investment Meet,

This book comprises the Proceedings of the 12th International Congress on Mathematical Education (ICME-12), which was held at COEX in Seoul, Korea, from July 8th to 15th, 2012. ICME-12 brought together 3500 experts from 92 countries, working to understand all of the intellectual and attitudinal challenges in the subject of mathematics education as a multidisciplinary research and practice. This work aims to serve as a platform for deeper, more sensitive and more collaborative involvement of all major contributors towards educational improvement and in research on the nature of teaching and learning in mathematics education. It introduces the major activities of ICME-12 which have successfully contributed to the sustainable development of mathematics education across the world. The program provides food for thought and inspiration for practice for everyone with an interest in mathematics education and makes an essential reference for teacher educators, curriculum developers and researchers in mathematics education. The work includes the texts of the four plenary lectures and three plenary panels and reports of three survey groups, five National presentations, the abstracts of fifty one Regular lectures, reports of thirty seven Topic Study Groups and seventeen Discussion Groups.

This book provides an overview of current activities in the fascinating area between computer science and sports, presenting the state of the art in utilising the latest developments in computer science to support sports coaches and athletes. It covers a broad range of topics reflecting the diversity of this interdisciplinary field, including concepts in informatics like expert systems, modelling, simulation, machine learning, robotics, and sensor integration. Further, it describes applications of computer science in sports, such as alpine skiing, badminton, football, rowing, and table tennis, as well as interesting applications areas of sport like dementia, physiology, training, and space flights. The appeals to informaticians interested in the application field of sports as well as for sports scientists and practitioners looking for advanced methods in their particular sport.

This volume presents reflections on a variety of environmental issues in South-Eastern Europe from diverse contemporary scientific disciplines. The contributions address many crucial issues including national environmental policies, economic instruments for preventing crimes against the environment, international waste trafficking, threats to air, water and soil due to mining, management of dump areas, environment protection and food safety from a perspective of public health. The book will be a useful resource for researchers, developers and decision makers interested in the stability and sustainable development of the South-Eastern European countries.
