Our desire to own unusual animals as pets often leads us to bring wild animals home.

However, instances of a pet chimp attacking its owner or a big cat mauling its keeper are not rare. These incidents have often raised questions about the practice of having wild animals as pets. Let us weigh the pros and

cons of this trend, which seems to be on the rise.

This may explain owner comments that their pet does not “ like/eat much hay ” , which can impact health if they are not ingesting sufficient digestible and indigestible fibre (Johnson Delaney 2009). For omnivores, like rats, the diet embraces an even wider range of foodstuffs, including seeds, berries, eggs, insects, carcasses, human leftovers.

will be prepared for her new life as an alien's bride. Her situation is made far worse after some ill-advised mischief forces the strict warden to ensure that she is sold as quickly as possible, and before she knows it, Isabella is standing naked before two huge, roughly handsome alien men, helpless and utterly on display for their inspection. More disturbing still, the men make it clear that they are buying her not as a bride, but as a pet. Zack and Noah have made a career of taming even the most headstrong of females, and they waste no time in teaching their new pet that her absolute obedience will be expected and even the slightest defiance will earn her a painful, embarrassing bare-bottom spanking, along with far more humiliating punishments if her behavior makes it necessary. Over the coming weeks, Isabella is trained as a pony and as a kitten, and she learns what it means to fully surrender her body to the bold dominance of two men

who will not hesitate to claim her in any way they please. But though she cannot deny her helpless arousal at being so thoroughly mastered, can she truly allow herself to fall in love with men who keep her as a pet?

As an unauthorized third child, nineteen-year-old Aimee Harrington has spent her life avoiding discovery by government authorities, but her world comes crashing down around her after she is caught stealing a vehicle in an act of petulant rebellion. Within hours of her arrest, she is escorted onto a ship bound for a detention center in the far reaches of the solar system. This facility is no ordinary prison, however. It is a training center for future brides, and once

Aimee has been properly prepared, she will be intimately, shamefully examined and then sold to an alien male in need of a mate.

Worse still, Aimee's defiant attitude quickly earns her the wrath of the strict warden, and to make an example of her, Aimee is offered as a wife not to a sophisticated gentleman but to three huge, fiercely dominant warriors of the planet Ollorin. Though Ollorin males are considered savages on Earth, Aimee soon realizes that while her new mates will demand her obedience and will not hesitate to spank her soundly if her behavior warrants it, they will also cherish and protect her in a way she has never experienced before. But when the time comes for her men to master her completely, will she find herself begging for more as her beautiful body is claimed hard and thoroughly by all three of them at once? Theirs to Examine. Theirs to Master. After nineteen-year-old Jenny Monroe is caught stealing from the home of a powerful politician, she is sent to a special prison in deep space to be trained for her future role as an alien's bride. Despite the public bare-bottom spanking she receives upon her arrival at the detention center, Jenny remains defiant, and before long she earns herself a trip to the notorious medical wing of the facility. Once there, Jenny quickly discovers that a sore bottom will now be the least of her worries, and soon enough she is naked, restrained, and shamefully on display as three stern, handsome alien doctors examine and correct her in the most humiliating ways imaginable. The doctors are experts in the treatment of naughty

Nineteen-year-old Alana hates her life on her uncle ' s merchant spaceship, and she is used to his lack of concern for her happiness, but she is nonetheless quite shocked when he agrees to offer her as a gift to Galath, a powerful alien commander who plans to make her his pet. Moments after she is brought aboard Galath ' s ship, Alana is

ordered to disrobe completely. From now on, she will wear nothing but a leash and collar, so that her beautiful body will be available for her owner ' s enjoyment any time he pleases. Galath makes clear that he will expect absolute submission from his pet, and disobedience will earn her a painful, humiliating spanking. To Alana ' s surprise, Galath ' s stern discipline arouses her intensely, and soon she is quivering with desire as she is brought to a blushing climax by her handsome master. Over the coming days she is taught what it means to belong completely to a dominant man, but when the time comes for her to be publicly claimed in the most shameful way possible, will she be ready? kidnapping of legendary pioneer Daniel Boone ' s daughter and the dramatic aftermath that rippled across the nation. On a quiet midsummer day in 1776, weeks after the signing of the Declaration of Independence, thirteen-year-old Jemima Boone and her friends Betsy and Fanny Callaway disappear near the Kentucky settlement of Boonesboro, the echoes of their faraway screams lingering on the air. A Cherokee-Shawnee raiding party has taken the girls as the latest salvo in the blood feud between American Indians and the colonial settlers who have decimated native lands and resources. Hanging Maw, the raiders ' leader, recognizes one of the captives as Jemima Boone, daughter of Kentucky's most influential pioneers, and realizes she could be a valuable pawn in the battle to drive the colonists out of the contested Kentucky territory for good. With Daniel Boone and his posse in pursuit, Hanging

Maw devises a plan that could ultimately bring greater peace both to the tribes and the colonists. But after the girls find clever ways to create a trail of clues, the raiding party is ambushed by Boone and the rescuers in a battle with reverberations that nobody could predict. As Matthew Pearl reveals, the exciting story of Jemima Boone's kidnapping vividly illuminates the early days of America's westward expansion, and the violent and tragic clashes across cultural lines that ensue. In this enthralling narrative in the tradition of Candice Millard and David Grann, Matthew Pearl unearths a forgotten and dramatic series of events from early in the Revolutionary War that opens a window into America's transition from colony to nation, with the heavy moral costs incurred amid shocking new alliances and betrayals.

Soon enough, she finds herself stripped naked, outfitted with a collar and tail, and eating from Blake's hand like a well-trained pet. To her dismay, Aubree's arousal grows more intense with every shameful display of forced submission. Rehabilitation has always been hard for Jason, even if he is the best in his line of work. His superior says because he's too soft for it, but he knows the real reason why. It's because he likes it too much, he likes when they send him the broken ones, the shifters that have been conditioned to be treated like the animals inside them. It is only natural for someone in his profession to be handed the hardest cases. When he starts reading about Anna in the papers, how the poor shifter has ears and a tail like a cat and has forgotten most of what it means to be human, he knows it is only a matter of time until she is handed to him. What they don't know is that Anna is exactly what he wants in a mate

and he has no desire to change anything about her. ~~~~~ Excerpt ~~~~~ He's sure he has the trust part of the exercise down. She is comfortable enough with him that she doesn't even pause when he turns his back to her in his quest to get his own meal. It doesn't take her long at all to demolish her own meal, finishing it up and then settling on her knees, licking the back of her hand to wipe her face. He takes his time with his own meal, taking bites of the deliberately underdone steak and licking up the blood before it can drip down his chin. She crawls closer to him on the table, tail wagging curiously behind her, ears perked back. He wonders if she has to beg for scraps this way during her captivity. She makes a soft inquiring noise that garners his attention. "Yes, Kitten?" he asks, looking up. Then, he chuckles. She has mayonnaise smeared over her chin and cheek, pieces of salmon stuck on her nose. "Look at you," he

says, pinching her chin between his forefinger and thumb and tilting her head up. "You've made such a mess of yourself, Kitten." He draws her forward without thinking and licks over her cheek and chin, cleaning her up the way wolves do, the flat of his tongue running over her cheek and closed eye. She tastes sweet, the mayo clinging to her skin, with an undertone of her own sweet scent and the clean taste of the salad side dish his chef had prepared for her. She leans into his touch eagerly, purring as he grooms her with his tongue. "There you go," he says, wiping his own saliva from her cheek fondly. He's going about this all the wrong ways deliberately, encouraging her animal instincts by piling his own on top of it. Tomorrow, he thinks to himself. He will start the program tomorrow. Today, he will enjoy having her like this, mostly human with a mind that is more animal. She crawls off the table once he is done with grooming
