why LBJ had JFK assassinated. The Man Who Killed Kennedy: The Case Against LBJ hit the New York Times bestseller list the week of the 50th Anniversary of the assassination of President John F. Kennedy. Consummate political insider Roger Stone makes a compelling case that Lyndon Baines Johnson had the motive, means, and opportunity to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way on the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of his nemesis attorney Robert Kennedy.

Stone uses fingerprint evidence and testimony to prove JFK was shot by a long-time LBJ hit man—not Lee Harvey Oswald. President Johnson would use power from his personal connections in Texas, from the criminal underworld, and from the United States government to escape an untimely end in politics and to seize even greater power. President Johnson, the thirty-sixth president of the United States, was the driving force behind a conspiracy to murder President Kennedy on November 22, 1963. In *The Man Who Killed Kennedy*, you will find out how and why he did it. Legendary political

critics of the official account. 50 years after the event, he comes up with a surprising and groundbreaking theory Cold Case Kennedy is the first book to systematically scrutinize all aspects of the murder dossier. Why did Robert Kennedy remain silent? Was there really a magic bullet? What was the role of Lyndon Johnson in the drama? Was there more than one sniper? Why did the Warren Commission refuse to consider a third victim on Dealey Plaza? What was a convicted gangster doing in the building directly across from the Texas School Book Depository? And, last but

not least: was the official investigation the most in-depth inquest ever to be carried out, or was it nothing more than a clumsy attempt to sweep things under the carpet? Flip de Mey started his career as a lawyer, but studied further to become a forensic auditor specializing in the unraveling of fraud and other irregularities. His expertise based on many years of experience and his specific methods for analyzing complex dossiers served him well during the pursuit of his passion: the assassination of JFK."

only public official to have indicted, in 1969, a suspect in President John F. Kennedy's murder. Garrison began by exposing the contradictions in the Warren Report, which concluded that Lee Harvey Oswald was an unstable pro-Castro Marxist who acted alone in killing Kennedy. A Farewell to Justice reveals that Oswald, no Marxist, was in fact working with both the FBI and the CIA, as well as with US Customs, and that the attempts to sabotage Garrison's investigation reached the highest levels of the US government. Garrison's suspects included CIA-sponsored soldiers of

fortune enlisted in assassination attempts against Fidel Castro, an anti-Castro Cuban asset, and a young runner for the conspirators, interviewed here for the first time by the author. Building upon Garrison's effort, Mellen uncovers decisive new evidence and clearly establishes the intelligence agencies' roles in both a president's assassination and its cover-up. In this revised edition, to be published in time for the fiftieth anniversary of the president's assassination, the author reveals new sources and recently uncovered documents
